COMMENTS

"Harvest of Hope has changed my life. I have recently had a loss of income and housing scarcity and HoH allows me to eat nutrient dense foods and stay healthy while I attend to other parts of my life"

"The job I have provides really meaningful work in the world but it doesn't pay well. Without HoH it would be difficult to continue doing this meaningful work in my life. I also eat way healthier... Being a customer here is empowering in many ways I never expected."

Everyone at Hope is so kind and friendly. I felt ashamed, in receiving help, but they welcome everyone with a smile. The healthy food is great!!"

"Harvest of Hope makes my miserable life circumstances easier to bear. It gives me more hope to live."

"I can eat fresh food. Before coming here I hadn't had fresh fruit or veggies in well over a year."

"Thank you for treating each person with dignity."

"It has helped me to be able to live my life after a massive heart attack"

"The genuine care and empathy the folks here exude is so great and just helps to ease the anxiety of the times."

"The staff is always friendly and makes me feel welcomed when I come for services. Other places make me feel less than and ashamed of my position in life at the moment. I can get the healthy food that I can not afford at the moment. Plus everyone here is very helpful about finding other resources that I need. They are awesome here"

"Harvest of Hope has given me hope: that I can make it, survive and thrive even in the darkest of times when I am at my lowest, the assistance and food Harvest of Hope has kept me alive, in more ways than one. Thank you."
